

ForestValue2

Newsletter 1/2023 - 24/04/2023 -

Spring is in the air!

Spring is a time of growth and new beginnings. This year it is also a new beginning for the ForestValue network as the second phase of ForestValue has just started.

This CSA project started on the 1st of January 2023 and is a continuation of the ForestValue ERA-Net Cofund project that ended in 2022. Although ForestValue2 was launched recently, it is already at an advanced stage of implementation. The first transnational call for funding of the R&I research projects in the forest-based sector is under preparation. Further updates on this call will be available in the next newsletter.

From wood wisdom to wood values and beyond

Research project collaborations for
increased innovation and competitiveness
of the European forest-based sector

DS.2 Monograph publication on the impact of
EU collaboration in the forest-based sector

This project has received funding from the European Union's
Horizon 2020 research and innovation programme
under grant agreement No 773324

Monograph publication on the impact of EU collaboration in the forest- based sector is now published

ForestValue network has announced the completion of the Monograph publication, 'From wood wisdom to wood values and beyond', outlining the impact of EU collaboration in the forest-based sector. It provides an overview of the impact of EU collaboration in the forest-based sector, in the framework of the ERA-Net projects that have taken place over the past two decades under the EU Framework Programmes for Research and Innovation funding.
