## ForestValue2 Joint Call now open

ForestValue2 transnational call for proposals for research, development and innovation in the forest-based sector is launched on the 2nd of May 2023, with an indicative public funding of up to 7 million €.

The ForestValue2 Joint Call 2023 aims to support a transnational collaborative systems approach to produce knowledge that supports the best use of forests and forest resources, while balancing the multiple benefits for society, climate, environment and the economy.

The Call has two themes:

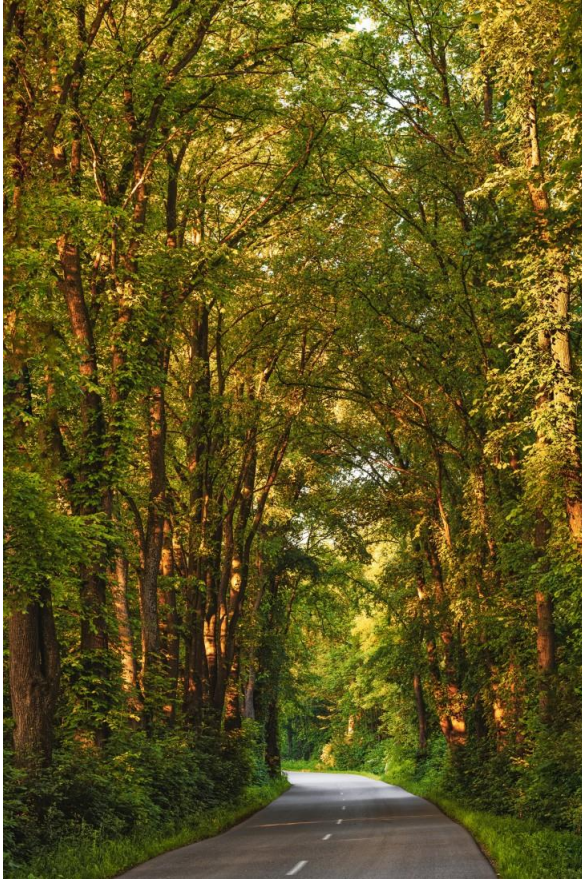

Theme 1 – Resilient sustainable forest systems and management

Theme 2 – Sustainable timber building systems

The deadline for submission of proposals is Friday, 01.09.2023 (13:00 CEST).

## ForestValue2 Joint Call 2023

### - Find partners

If you are interested in connecting with other stakeholders and/or enlarge your consortium, you are welcome to complete the **ForestValue2 Networking Survey**. The Survey information will be published on the ForestValue2 [website](#) in Excel format for the ForestValue2 Joint Call in 2023. The file will be updated once per week until the end of August 2023

**Fill out the ForestValue2  
Networking Survey**

### Join the EUFORE community and make an impact

The European Forest Research and Innovation Ecosystem ([EUFORE](#)) is a Horizon Europe project funded by the European Union, running from November 2022 to October 2026. The project aims to develop a sustainable, transnational, co-creative environment to define, implement and evaluate research and innovation (R&I) agenda and roadmap for the entire forest-based value chains in Europe. **EUFORE now invites all interested stakeholders from research, governance, regulators, industry and businesses, as well as civil society to help in this work.**

You can choose just to follow EUFORE news and highlights or you can volunteer for a more active participation between several options: participate in a survey on R&I needs, workshops on projects' scientific results, regional/ EU-level

meetings to co-create a Strategic Research and Innovation Agenda (SRIA) or to thematic working groups to actually draft the SRIA, it's your call.
